BrightPath Tech

Fast, affordable digital transformation

Response to MRG-RFP-2026-014: Customer Service Platform Modernisation
Prepared for Meridian Retail Group (fictional)

1. Executive Summary and Understanding of the Requirement

BrightPath Tech is excited to propose an agile, low-cost route to a modern customer service platform for Meridian Retail Group. We understand Meridian wants to move quickly away from its legacy tools and keep costs under control.

Our offer is the lowest total cost and the fastest timeline we believe Meridian will receive: go-live in 12 weeks.

2. Proposed Solution and Technical Approach

We will configure our SaaS helpdesk product, BrightDesk, which provides ticketing, live chat, email and a basic knowledge base. The product is hosted on a public cloud and scales by adding instances as demand grows.

Integration with Salesforce CRM is available through our standard REST API. Integration with SAP and Genesys can be built during the project using our API.

3. Implementation Approach, Timeline, Team and Milestones

We use a rapid 12-week delivery model: weeks 1-2 setup, weeks 3-9 configuration, weeks 10-11 testing, week 12 go-live.

Our team will consist of a project lead and four consultants. We work in two-week sprints and will agree the detailed plan with Meridian after contract signature.

4. Commercial Proposal

Item	Price (USD)
BrightDesk subscription (3 years, 1,200 agents)	$396,000
Configuration and setup (fixed price)	$129,000
Training (online)	$20,000
Integrations (SAP, Genesys)	$40,000
Total contract value (3 years)	**$585,000**

Pricing assumptions

All-inclusive fixed price for the scope described. Prices exclude taxes. Subscription billed annually. Integration effort assumes Meridian provides API documentation and test environments in week 1. Payment: 50% on signature, 50% on go-live.

5. Security, Compliance and Risk Controls

BrightPath follows industry best practices for security. Our hosting provider is a major cloud vendor with its own certifications.

We are planning to begin ISO 27001 certification next year. A security questionnaire can be completed on request.

6. Support Model, Relevant Experience and References

Support is available by email during business hours, Monday to Friday.

BrightPath was founded in 2023. We have completed two helpdesk deployments for small e-commerce businesses. References are available on request.
