Orbit Digital

18 years of customer experience excellence

Response to MRG-RFP-2026-014: Customer Service Platform Modernisation
Prepared for Meridian Retail Group (fictional)

1. Executive Summary and Understanding of the Requirement

Orbit Digital is delighted to respond to Meridian Retail Group's RFP. With 18 years of experience and more than 40 customer service platform implementations, we understand the challenges of modernising contact centres for large retailers.

Our proposal draws on this experience to deliver a proven platform with dependable support.

2. Proposed Solution and Technical Approach

We will deploy Orbit CX, our established customer service suite, covering case management, omnichannel routing and knowledge management. Orbit CX is cloud-hosted and has been load tested with 2,500 concurrent agents.

Integration with Meridian's CRM, ERP and telephony systems will be finalised during discovery. We will use standard connectors as needed; the detailed integration approach is to be confirmed once we have reviewed Meridian's environment. The platform has supported large agent populations for other clients.

3. Implementation Approach, Timeline, Team and Milestones

We expect delivery to take approximately 22 weeks, structured as discovery (weeks 1-4), configuration (weeks 5-14), testing (weeks 15-19) and rollout (weeks 20-22).

Milestones: design sign-off, UAT sign-off and go-live. Exact dates will be agreed after discovery.

Our team will include a delivery manager, a solution architect and a team of consultants drawn from our delivery centre. A risk register will be maintained by the delivery manager, and our change management lead will support agent training.

4. Commercial Proposal

Item	Price (USD)
Orbit CX licences (3 years, 1,200 agents)	$600,000
Implementation services (fixed price)	$260,000
Training	$30,000
Integration (estimate, to be confirmed)	$50,000
Total contract value (3 years)	**$940,000**

Pricing assumptions

Prices exclude taxes. Licences are billed annually. Implementation is fixed price for configuration; integration is an estimate and may change after discovery. Payment milestones are aligned to design sign-off, UAT sign-off and go-live.

5. Security, Compliance and Risk Controls

Orbit Digital is ISO/IEC 27001 certified. Data is encrypted at rest and in transit.

Access is controlled through role-based access control and SSO. We comply with GDPR and will support Meridian's data protection obligations.

6. Support Model, Relevant Experience and References

Support is 24x7 with a tiered L1/L2/L3 model and a named account manager. SLA response times: P1 30 minutes, P2 2 hours, P3 1 business day.

Relevant experience: more than 40 implementations since 2008, including 12 for retailers with over 1,000 agents.
